

ONLINE ACTIVISM CONSERVATORY

Interested in prevention?

The Online Activism Conservatory (AC) is a prevention-oriented community of practice dedicated to ending domestic and sexual violence through social justice and prevention efforts. Throughout the year there are **free**, weekly webinars center on prevention best practices and create a space where programs doing prevention and community-based work can support each other.

These webinars are a fantastic way for you to increase prevention knowledge, find out what prevention activities are going on in Michigan, and build connections with other agencies!

TESTIMONIALS FROM PARTICIPANTS:

"This forces me to expand horizons on topics on the intersectionality of oppression. I am passionate about gender issues and this helps me explore the community partners to be able to understand where they are coming from" -Megan

"If you want to make sure you are serving all areas of your community the AC is beneficial because it will tell you what areas are missing and areas you have not looked at before" -Layla & Amanda

Please email Amanda Barratt @ amanda.barratt@mcedsv.org if you are interested in joining the listserv or learning more about the online Activism Conservatory
